Table 148

Q.4a. There is a proposal that Congress devote at least fifty billion dollars in the coronavirus relief package to stabilizing the child care industry. Funds would be used to keep child care providers open, maintain payments to child care workers during the downturn, and help working parents afford child care so they can continue working. Do you strongly favor, somewhat favor, somewhat oppose, or strongly oppose this proposal?

Table 148

Q.4a. There is a proposal that Congress devote at least fifty billion dollars in the coronavirus relief package to stabilizing the child care industry. Funds would be used to keep child care providers open, maintain payments to child care workers during the downturn, and help working parents afford child care so they can continue working. Do you strongly favor, somewhat favor, somewhat oppose, or strongly oppose this proposal?
